

# RECYCLED PLASTIC

## *bollards*

▲ ABERDEEN CIRCULAR with chain  
(special commission)  
shown here at The National Trust, Buckingham

### Furnitubes offer an economical range of recycled plastic bollards.

These bollards provide a durable, environmentally friendly option for large developments or temporary sites. The bollards are long lasting, robust, low maintenance and recyclable.

Made from high quality preprocessed recycled plastics, they can be treated the same way as timber bollards, with connections such as screwing possible, allowing the provision of chains, signs and reflective tape.

#### RECYCLED PLASTIC

- long lasting & robust
- economical
- low maintenance
- 100% recycled & recyclable
- weather proof
- UV stable
- splinter & knot free

Available in brown or black as standard

*looks just like real timber!*

# RECYCLED COMPOSITE bollards

Free from knots, rot and splinters, Funitubes recycled composite bollards are a viable alternative to timber bollards.

Funitubes recycled composite timber bollards are made from 100% recycled material. Made from 50% sawdust & 50% HDPE, the product maintains a natural wood texture and appearance at a reduced environmental and economic cost.

with stainless steel cap

## RECYCLED COMPOSITE

- environmentally friendly
- weather resistant
- impervious to rot & wood eating organisms
- durable & easy to maintain
- low water absorption
- fire proof performance
- crack resistant
