▼ WAVE Stainless Steel, Bright Polished shown here in Greenwich, London

# uk nola wave litter bins

The steel Wave is extremely durable and is ideal for withstanding the rigours of everyday use in High Street locations.

The Wave Litter Bin was originally designed to complement the Wave Seat. However, the bin has become increasingly popular as an attractive, functional unit in its own right. Constructed from shaped steel slats, the Wave comes complete with a galvanised steel liner and cast iron base plinth.

For long term durability the Wave bin is galvanised as standard and painted to most BS4800/RAL colours. Furnitubes stainless steel versions with cast bronze base embellishments are proving extremely popular with specifiers.

# Zenith® litter bins

bollards pg 51    parking pg 89    seating pg 182    signage pg 276

The Zenith Waste Bins are not only stylish and strong, but allow the appropriate disposal of cigarette waste and keep areas tidy and attractive.

The circular, stainless steel bins also contain an ash waste stubber and liner for disposal of cigarette ash and butts.

Many of Fumitubes litter bins can have signs and plaques incorporated to the design to match corporate or town logos. To the right, the turquoise vinyl yacht logo has been used throughout products supplied to Canvey Island, Essex.

## FEATURES

- stainless steel construction
- satin polished
- free standing side opening
- galvanised removable liner
- slam lock

### CIGARETTE STUBBER & INTERNAL ASH TRAY

These bins are supplied with a cigarette stub plate and holes to place cigarette butts. These are separated from general litter by an internal ashtray.

▲ ZENITH 500 ASH  
ash waste liner on both sides

### BIRD PROOF

Many of Fumitubes Litter bins are available with flaps, visually hiding the contents of waste in the bin and functionally keeping birds and vermin out.

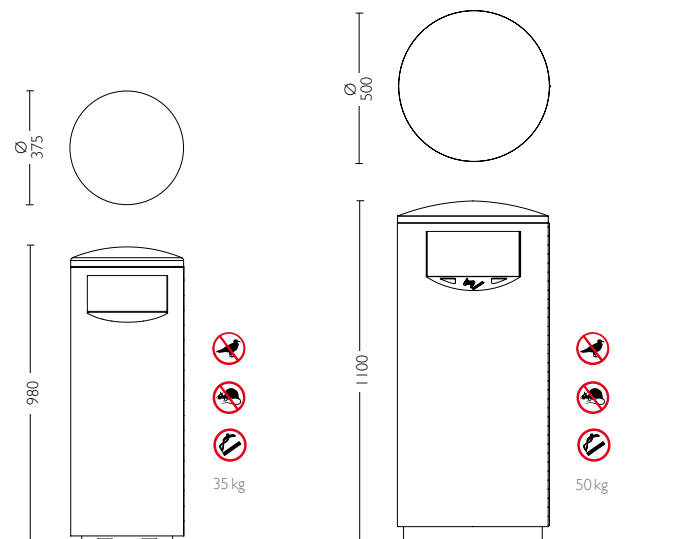

▲ ZENITH 500

## recycling bins

▲ CALEDONIAN RECYCLING  
with 85 and 65 litre liners and vinyl 'Recycle' Logo

The **Caledonian** litter bin is constructed from steel and with a powder coated finish it is incredibly durable. Available with a stubber & ash pocket with the option of vinyl graphics & banding.

The steel **President Recycling** litter bin is a popular choice due to its attractive perforated design. Coated in a hard-wearing plastic finish. With graphics on the front of the bin to aid use, and a slam lock facility.

Other colours and options available, please contact sales for more information.
