

RECYCLED PLASTIC *seating*

▲ ABERDEEN SEAT
grey recycled plastic slats

Recycled Plastic Seating is not only environmentally friendly, but requires minimal maintenance and is extremely durable and weather resistant.

The **Aberdeen** range utilises thick recycled slats to create comfortable eco-friendly furniture. The range consists of a matching seat, bench and table which can be used together within a scheme.

Both the Aberdeen and Perth seats are available with rounded standards, as shown below. These legs are narrower. See technical for further details.

TECHNICAL

Material
Furnitubes recycled plastic seats are made from high quality preprocessed recycled plastics. Recycled plastic products may show variations in colour and dimensions.

Colours
Seats are supplied in brown as standard. Other coloured slats are available on request.

Fixing
Seats are supplied flat-packed, with fixings, tools and instructions for self assembly.

Note 1

Seat Ends
The Aberdeen and Perth seats are available with rounded leg standards.

Seats height can be an aid when alighting

Product Codes are in **bold type**. Dimensions are in mm, are approximate and do not form any part of the contract.

We reserve the right to change the design and specification on any item offered and, where possible, notification will be made.

The **Perth** range uses the same profile of the Aberdeen but consists of smaller slats placed together. The Perth Seat consists of five slats, and is available with matching bench and table.

The Perth bench is also available in hexagonal form, allowing for tree or planters to be placed in the centre.
