

▼ COLLEGE Root Fixed Galvanised Finish installed at Austin Court, Basingstoke

COLLEGE *cycle stand*

The College steel cycle stands are a popular choice due to their timeless appearance, great value and low maintenance finish.

These durable, easy to maintain stands can be bolted down or root fixed, and are available in galvanised steel and stainless steel. For extra strength, a larger diameter can be specified.

The College stands are the most economical on the market today and are usually available from stock. They can also be offered with a hardwearing plastic coated finish in a range of colours.

▲ COLLEGE Root Fixed
satin polished stainless steel
installed at Beaufort Park,
Hendon, London

▲ COLLEGE Bolt Down
galvanised steel
shown at West Middlesex University Hospital, Isleworth

OPTIONS

- galvanised steel
- stainless steel - bright or satin polished
- plastic coated finish
- bolt down or root fixed

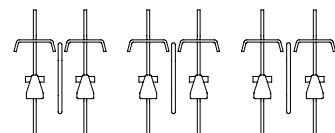

▲ COLLEGE Root Fixed
black plastic coated
installed in Hereford

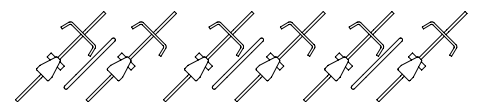

▲ COLLEGE Toast Rack
satin polished stainless steel
as supplied to the City of London School for Girls, Barbican

Individual stands enable a number of installation configurations. For example, stands can be angled, as shown, to reduce the amount of width that cycles occupy.

Alternatively stands can be supplied welded together to form a 'toast rack' that is ideal for locations where the unit is required to be free-standing or for speed of installation. Please call our Sales Department to discuss your site requirements.

COLLEGE RANGE

TECHNICAL

Material
Furnitubes steel and stainless steel cycle stands are 100% recyclable.

Note 1

Plastic Coating
College cycle stands are available galvanised with a hardwearing plastic coating which offers a high degree of durability and vandal resistance. Available in the following colours:

- RAL 9016 - White
- RAL 1021 - Yellow
- RAL 5015 - Blue
- RAL 3020 - Red
- RAL 6005 - Green
- RAL 8017 - Brown
- RAL 7001 - Grey
- RAL 9005 - Black

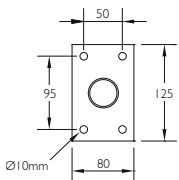

For further information on paint finishes refer to pages 337-339.

Note 2

Satin Polish
The Stainless Steel version of the College can also be polished to a Satin Finish upon request.

Note 3

Base Plate
The optional base plate is 6mm thick and has the dimensions as follows:

For cycle stands with a taper bar see the Zenith (pg 89), TFL and Hammersmith (pg 97).

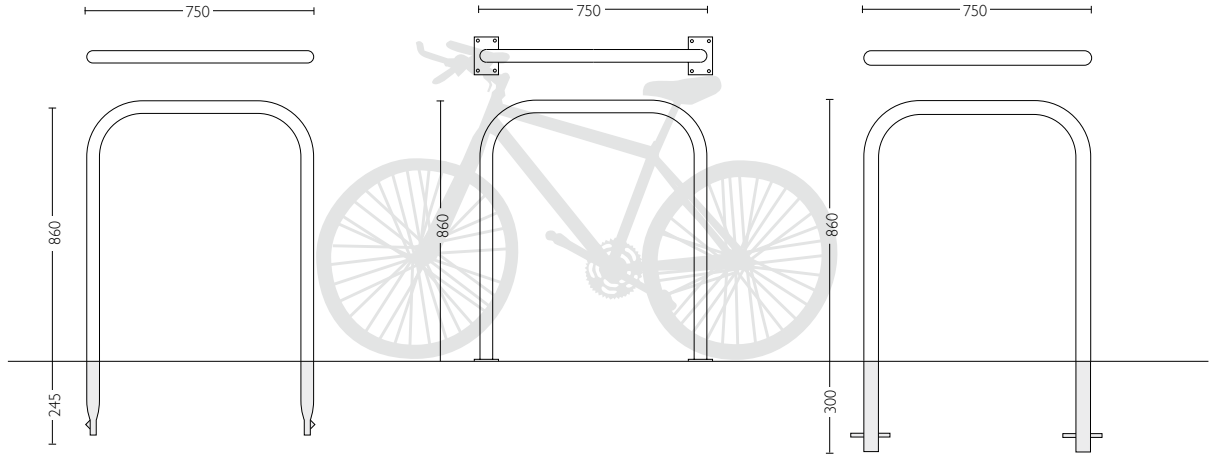

More Toast Racks available on page 93.

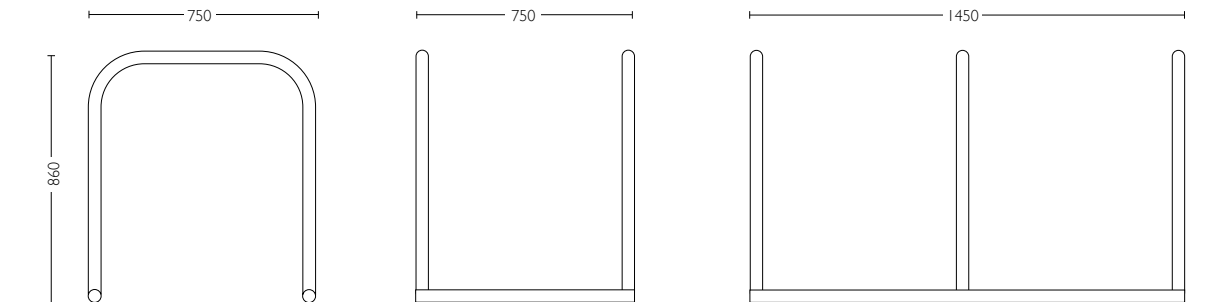

Product Codes are in **bold type**. Dimensions are in mm, are approximate and do not form any part of the contract.

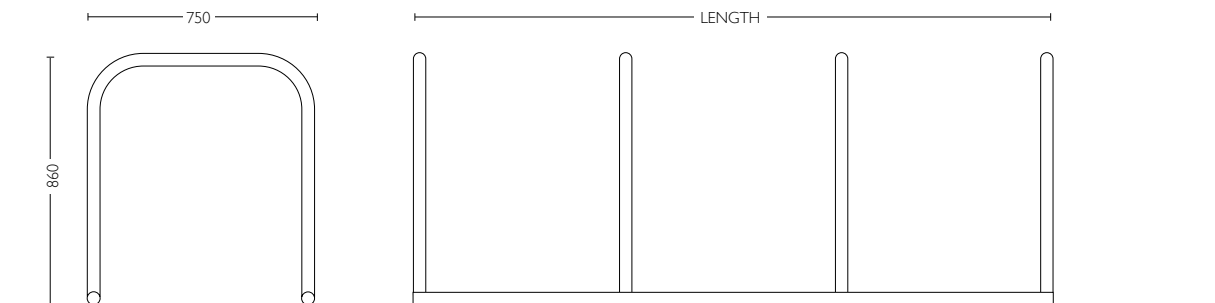

We reserve the right to change the design and specification on any item offered and, where possible, notification will be made.

Zenith[®] cycle stand

The stainless steel Zenith[®] Cycle Stand is the latest addition to the Zenith[®] range.

Its 48mm diameter construction makes it considerably stronger than many cycle stands, with a fully welded taper rail to offer additional strength, locking opportunities and assist detection by the visually impaired.

FIN

cycle stand

▲ **FIN 600 Root Fixed**
satin polished stainless steel
supplied to Burdett Park, Mile End, London

The contemporary shape of the Fin cycle stand was designed for the Millennium.

This distinctive cycle stand is manufactured in heavy-duty steel sections. The Fin is unique in design and durable to withstand the rigours of frequent use.

Available in steel and stainless steel with a range of finishes and options including root fixed and bolt down.

▲ **FIN 480 Root Fixed**
galvanised steel with decorative corner plate
shown at the Eden Project, Cornwall

◀ **FIN 600 Bolt Down**
bright polished stainless steel
with decorative corner plate

The Fin range is available in two sizes and a decorative corner plate is available as an extra option to secure bikes to the stand. The plate can also be fitted with a plaque for sponsorship, see page 107 for more details.

To tie in with town schemes, stands can be plastic coated to create visual harmony.

MODULAR TOAST

rack

The unique shape of the Modular Toast Rack is ideal for schools play areas.

Available in steel and stainless steel, the rack is durable and low maintenance. The freestanding bolt down stand is quick and easy to install, making it ideal for inside cycle shelters.

The College Toast Rack is also available, see pages 87-88.
