

CORE RANGE

Core seating blocks and tables

The Core concrete range provides simple yet elegant seating in a variety of different sizes and forms. The Core range consists of stand-alone units which can be used to form clusters of informal seating and tables available in a wide range of standard concrete colours and finishes, generally all with rounded edges for added comfort and to reduce the risk of chipping.

Installation

Models COS450 R, COS650 R and COC600 R have a 50mm x 50mm recess at the base. This allows the bench to be installed either on top of the ground or the recess inset into the ground - the benefits of each method are illustrated in the Blyth section of Furnitubes' concrete seating brochure. Please note that the faces of the recess are left 'as-struck' and not finished to match the main body of the bench. Models COS450 and COS800 are flat-based, without a recess.
