

# Sky Allotments – a green rooftop experience.

There's plenty of Rooftop space throughout the country that's being massively underutilised. But over the last few years the demand for rooftop initiatives have been rising.

This CPD is all about exploring the possibilities of transforming these spaces and the long term benefits to the environment and communities alike.

## What you will gain from this CPD

- How rooftops can be better utilised by landscapers
- Rooftop agriculture and its impact on our environment and communities
- How modular solutions can help you with your rooftop vision and cut costs at the same time

Duration: 40 minutes + Q&As
